

TOP TEN THINGS I NEED TO KNOW

UNIT # - _____ **UNIT NAME -** _____

To receive your adjusted test score, you need to complete this assignment. If you are absent the day it was completed in class, it is due one week from the test day. Include the ten most important things you learned from the test and not necessarily just things you got wrong. Another way to think about this assignment is, "What do I need to remember about this unit when I take the AP Exam in May?" This is your only record of the test so make it count.

The score adjustment will vary from test to test.

FOR EXAMPLE: Impeachment does NOT mean to 'kick out of office.' Impeachment simply means that the House has voted by a simple majority to bring charges against a President or federal judge. It is similar to being indicted by a grand jury.
